New Tulip Special

25 Bulbs \$1 prepaid 100 Bulbs \$3 prepaid

(Orders must contain no less than 6 bulbs of any variety listed)

DARWIN TULIPS

Ad. Van der Heeden Bright red.

Centenaire Beautiful violet rose, with white base. An exceptionally fine color, delicate and artistic.

Clara Butt Possibly the best known and admired of all of the Darwins. Clear pink, flushed with delicate salmon-rose. A medium-sized flower of fine form.

Dream A beautiful uniform lilac in color. Its stem is slender and very graceful, which recommends it as especially desirable for cutting.

Gon Buller Red.

Inglescombe Yellow Canary yellow. A large globular flower.

Jacob Maris Fiery-red.

LeNorte Rose shaded blush.

Mad. Krelage Soft lilac-rose, with a broad margin of blush-pink. A large flower on a tall stem.

Niagara Pink.

Phil. de Communes Velvety dark purple, early, strong stem. One of the best dark varieties.

Princess Elizabeth Dull crimson-pink, edged with soft rose. With age, entire flower changes to a lovely rose.

Pride of Haarlem Brilliant rosy carmine, with blue base; very large flower of superb form, borne on a tall, strong stem.

Professor Rauwenhoff Deep cherry rose, with salmon glow inside; enormous flower of great substance on a strong stem.

Rose Beauty A very pretty rose.

Roi de l'Island Old rose, a beautiful globe-shaped flower, not very tall.

The Admiral Bright red.

White Lady Creamy white.

White City White.

Wm. Copeland Rosy-lilac, highly recommended, the earliest of all.

William Pitt Brilliant scarlet; splendid for bedding.

BREEDER TULIPS

Bronze Queen Soft buff, inside tinged golden bronze; a large flower of sturdy habits.

Louis XIV A magnificent tulip. Dark purple flushed with bronze (see illustration); broad margin of golden brown. Base is black, tinged green and starred with yellow. Globular in form and of excellent substance.

Marie Louise Salmon rose, edged orange.

Madras Dark bronzy yellow.

Marvelous Soft rosy red.

Panorama Very large, globular-shaped flower of a deep orange-red.

Prof. Schotel Bright violet-blue.

Quaintness Bronze and orange.

Sans Pereille Dark violet.

St. James Dark lilac, edged bronze, shaded rose; inside mahogany, shading to golden bronze. Very beautiful large flower on a stem 30" tall.

Turenne Dark blue, flushed bronze at edges of petals.

U. S. A. Carmine-red; golden edged.

Special . . . DARWIN and BREEDER TULIPS in mixture for \$2.25 per hundred, prepaid. Or 50 Bulbs for \$1.25 prepaid

EVERGREENS

All Evergreens Shipped Transportation Charges Collect

ARBOR VITAE

American 12' to 18" \$0.50 each 2' to 3' B & B \$1.00 each
18' to 24" .75 each 3' to 4' B & B 2.00 each

One of the finest evergreens for hedges. It grows rapidly and soon forms a most beautiful hedge; very dense.

Globosa 8' to 10" \$0.20 each 12' to 18" \$0.50 each
18' to 24" B & B \$1.00 each

Forms a dense, low, globe-shape. A beautiful evergreen, particularly fine for formal planting.

Pyramidalis 9' to 12" \$0.20 each 2' to 3' B & B \$1.75 each
18' to 24" B & B 1.00 each 3' to 4' B & B 3.00 each

An exceedingly beautiful, bright variety, resembling the Irish Juniper in form; foliage a deep green, color well retained in winter; perfectly hardy.

JUNIPERUS (Juniper or Cedars)

Trees are generally pyramidal in shape and hardy everywhere. The needles are short and generally bright on the under side.

Irish (Hibernica) 9' to 12" \$0.20 each 2' to 3' B & B \$2.00 each
18' to 24" B & B 1.00 each 3' to 4' B & B 3.00 each

Of slender columnar habit with glaucous green foliage.

Pfitzeriana 15' to 18" B & B \$1.75 each 18' to 24" B & B \$2.50 each
2' to 3' B & B \$3.50 each

A graceful, broad, pyramidal evergreen with sweeping fronds of gray-green foliage, making in time a distinctly beautiful tree.

Sabina 15' to 18" B & B \$1.50 each 18' to 24" B & B \$2.25 each
2' to 3' B & B \$2.50 each

A low, many-branched shrub, usually growing not over two to three feet high, but sometimes reaching a larger size in old trees. Its branches are spreading, dense, thickly covered with branchlets and heavily clothed with short, tufted foliage. Color is dark green at all seasons of the year. Its berries are blackish-purple or dark violet in color, some smooth and shining, some glaucous or powdery, all of them small, round or oval, about the size of small currants.

Juniper Virginia (Red Cedar) 2' to 3' B & B \$2.00 each

This is America's best advertised evergreen, as nature planted it over almost all of the American Continent. Red Cedar varies much in habit and color of foliage; very attractive in winter, when the golden bronze of the young growth contrasts with the dark green of the older.

PICEA (The Spruces)

These are all easy to transplant, and the most popular of the evergreen family. They are perfectly hardy and grow rapidly and are pyramidal in shape. They can be used for specimens, in groups or for foundation adornment. Needles are uniformly short.

Colorado Blue Spruce (Picea Pungens Glauca)

9' to 12" \$0.20 ea. 18' to 24" B & B \$4.00 ea. 2' to 3' B & B \$6.50 ea.

This is really the culmination of nature's highest effort to produce a beautiful tree. Imagine, if you can, a perfectly shaped tree with an abundance of heavy foliage of rich, glistening blue, which flashes and sparkles in the sunlight, and you can then form a faint idea of the regal beauty of this wonderful tree. Its great beauty comes from the foliage, which is an intense steel-blue.

Hemlock 12' to 18" B & B \$1.00 ea. 2' to 3' B & B \$2.00 ea.
3' to 4' B & B \$3.00 ea.

An elegant pyramidal tree, with drooping branches and delicate dark foliage. Distinct from all other trees. It is a beautiful lawn tree and makes a highly ornamental hedge.

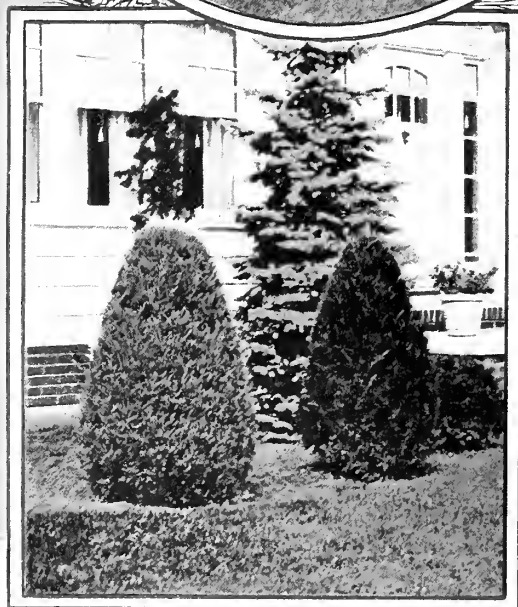

Norway Spruce 12' to 15" \$0.20 ea. 2' to 3' B & B \$1.25 ea.
18' to 24" .75 ea. 3' to 4' B & B 2.00 ea.

A lofty, elegant tree of perfect pyramidal habit, remarkably elegant and rich as it gets its age; has fine, graceful pendulous branches. It is exceedingly picturesque and beautiful.

PINUS (The Pines)

Mugho Pine 6' to 9" \$0.20 ea. 12' to 15" B & B \$1.55 ea.
9' to 12" .75 ea. 18' to 24" B & B 2.50 ea.

This is an excellent dwarf pine, being globe shaped and erect branching when the new growth, which seems like miniature candles, completely covers the bush. The color is deep green in summer and winter. It seldom grows over four to five feet tall, but spreads out six to eight or more feet in diameter when full grown. By annual shearing, it can be kept as small as desired.

HIBISCUS

9 Plants \$1
For Only
Transportation
Charges Collect

The Hibiscus or Mallows, as they are often called, are very hardy and adapt themselves readily to almost any planting. When grouped in masses the large plants present a very pleasing picture. They can be planted either among shrubs, or used as a substitute for shrubs. These large, beautiful flowering shrubs do equally well in dry or moist soil, sun or partial shade. They need very little fertilizer and require little or practically no care. The tops die down in winter and are very slow in coming up in the spring, but once they show signs of growth, they develop very rapidly.

The Mallows we offer in this collection are not the ordinary run of Hibiscus, but are produced from the finest strains available. The collection contains the very choicest of mixed seedlings and they come in all shades of pink; some pink with red throats; white with red throats; pure white; red, and an occasional cream colored one.

The Hibiscus are the largest flowers that grow in the summer garden and present a gorgeous sight when in bloom. They grow 3 to 8 feet tall and the branches spread out over a great area. Plants begin to bloom in July, continuing during August and September.

TIGER LILIES

20 CENTS EACH
\$1.50 Per Dozen Bulbs

PREPAID TO YOU

(No Orders for Tiger Lilies Accepted for Less Than 6 Bulbs)

THE TIGER LILY (see illustration) is cheerful and the happiest of lilies. Nearly every one of us carries a memory of some beautiful clump of them, along some country road or by an old familiar house. The wide, red-orange, recurved flowers, the long, finger-like buds and the flaring chocolate-maroon anthers are deeply etched in the minds of all flower-loving persons who grew up in the American countryside, for this was one of the best beloved of "old-fashioned flowers."

They succeed best in a deep, loamy soil, rather dry, never wet; full sun for the flowers; heavy covering for the roots and bases of the stems. The bulbs should be planted rather deeply, for they will find their own level in a year or two. When once established and flourishing, they are best left alone for a long time. The Tiger Lily is one of the brightest and showiest of the lilies, and carries its gay mid-summer color into the early weeks of autumn.

Lilium Tigrinum Flore-Pleno

This is an attractive double form of the Tiger Lily. WE NOW OFFER THESE BULBS AT 25 CENTS EACH, OR \$2.50 PER DOZEN.

A. E. KUNDLERID • GOSHEN, INDIANA

Ornamental Trees at Lowest Prices

CHINESE ELM

3 to 4 ft. 30c each
5 to 6 ft. 70c each
6 to 8 ft. \$1.25 each

Very compact and one of the most rapidly growing shade trees. Round head. Leaves are small and of an olive-green color. Very hardy.

FLOWERING CRABS

Bechtel's Double Flowering Crab

2 to 3 ft. 40c each 3 to 4 ft. 50c each

A sturdy grower, hardy and a medium size; flowers large, double, resembling double pink roses; very fragrant when in bloom, looks like mammoth rose; blooms young.

Purple Leaf Crab

3 to 4 ft. 30c each 4 to 5 ft. 40c each

This tree has purple leaves equal to the purple leaf plum and makes a beautiful lawn tree throughout the entire summer. When in bloom in May and June it is a mass of pink flowers, which are so thick that the leaves can hardly be seen. It is getting to be more popular than the magnolia tree.

Red Flowering Crab

3 to 4 ft. 30c each 4 to 5 ft. 40c each

This variety has green leaves, is an upright grower, and when in flower is one mass of bloom, through May and June; red flowers.

Linden Tree—Vulgaris

{*Europaea*}

5 to 6 ft. \$1.50 each 6 to 8 ft. \$2.00 each

European Linden. Fine, large pyramidal tree. Foliage plentiful, forming a dense shade. Very fragrant.

Lombardy Poplar

3 to 4 ft. 20c each 5 to 6 ft. 30c each
6 to 8 ft. 40c each

Well known for its erect, rapid growth and commanding form; very desirable in large grounds and along roads to break the average height and form of other trees.

Purple Leaf Plum {*Prunus pissardi*}

2 to 3 ft. 30c each 3 to 4 ft. 40c each
4 to 5 ft. 50c each

This is the finest purple leaved tree or shrub. In the spring the leaves are crimson, changing to dark purple as the season advances. This splendid color is maintained until the leaves drop in the fall.

Rose Tree of China {*Prunus*

Triloba} 2 to 3 ft. 50c each

A new and distinct shrub which blooms in May. Solid mass of pink, rose-shaped flowers. Planted on the lawn, there is nothing more beautiful.

Tulip Poplar {*Yellow Poplar*}

4 to 5 ft. 75c ea. 5 to 6 ft. \$1.00 ea.
6 to 8 ft. \$1.25 ea.

One of the grandest of our native trees; of tall, pyramidal habit; broad, glossy, fiddle-shaped leaves and beautiful tulip-shaped flowers and seed pods that resemble a multitude of candles.

A. E. KUNDERD, Goshen, Ind.

Althea (Rose of Sharon) Unsurpassed by anything in the hardy shrub line for freedom of bloom or range of color. From midsummer until frost, when few other shrubs are in bloom, the Althea is most handsome with its large, camellia-like flowers of the most varied and beautiful shades. We offer the following varieties:

1. Double blue—deep blue.
2. Double variegated—pink and white.
3. Double purple.
4. Double red; an excellent striped variety, nicely marked white and rose.
5. Double white.
6. White, with crimson center.

Butterfly Bush (Buddleia Magnificia) A truly beautiful form of the above species, with deep purple-lilac flowers, borne on long, graceful panicles, commencing to open in midsummer and continuing until frost. Long gray-green leaves. An excellent addition to late-blooming shrubs.

Cornus Elegantissima (Variegated Dogwood) Fine variegated shrub; leaves broadly margined with white.

Deutzia (Gracilis) One of the finest of shrubs for abundance of pretty blooms, which cover the plants in early spring. Can be used in borders, mass or specimen planting. Gracilis is the finest of the dwarf shrubs, with white flowers. Eighteen inches is the extreme height. We offer only 15 to 18 inch shrub.

Forsythia (Golden Bell) These splendid old shrubs, growing eight to ten feet tall eventually, light up the garden with glinting masses of yellow very early in spring before leaves appear.

Hydrangea (Paniculata Grandiflora) One of the most popular shrubs in cultivation, blooming at a time when few shrubs are in bloom. Flowers borne in huge panicles from eight to twelve inches long, delicate pink changing to brown.

Lonicera (Bush Honeysuckle) Tartarica Rubra Valuable shrub for tall hedge and for a specimen at the corner of the home. It has beautiful bright red berries.

Philadelphus-Virginialis (Mock Orange) This old-fashioned shrub with creamy white flowers borne in clusters is found in many plantings. Virginialis blooms throughout the season. This is, no doubt, the best large-flowering mock orange. The immense double white flowers are very fragrant.

Snowberry-Racemosus Three to four feet. Flowers small, pink, in June or July; foliage dark green; large white berries, which hang well into winter.

Spirea These small to medium sized shrubs are indispensable and are unsurpassed in beauty. Of easiest culture and very hardy. Excellent for use either singly or clumping effects.

Anthony Waterer two to three feet. An improved variety of this type; dwarf, upright grower, covered from June or July until fall with dark large heads of dark crimson flowers. We offer this shrub only in 18 to 24 inch.

Arguta This spirea grows four to five feet tall. It is of dwarf, slender, graceful habit, with fine light

green foliage. It blooms very early, last of April or first of May.

Van Houttei This is undoubtedly the most charming and beautiful of all the varieties, having pure white flowers in clusters, the branches drooping to the ground. Foliage is a rich green. Very profuse bloomer, and the plants are remarkably hardy.

Viburnum-Opulus (High Bush Cranberry) This shrub grows eight to ten feet tall, having white flowers which bloom in May. It is a strong grower, with rather spreading habits, having single white flowers borne in flat clusters. The very showy red fruit, which follows, and beautiful coloring in fall make it a very desirable shrub for the garden.

ROSES (Climbing)

Climbing American Beauty Its name is somewhat misleading, but it is one of the best climbing roses; a strong, healthy, vigorous grower, frequently making shoots from ten to twelve feet long, and good sized flowers for a climbing rose that blooms so freely; color rich rosy crimson, of splendid form and good substance.

Dr. Van Fleet A rose, which on account of its dainty color and exquisitely shaped buds and flowers, has become a great favorite. The long, pointed buds are of a rich blush-pink on stems 12 to 18 inches long, splendid for cutting. A vigorous grower.

Exeelsa Bright crimson flowers in large clusters. Very vigorous and hardy. Many prefer it to Crimson Rambler, and it is generally called "Red Dorothy Perkins."

Mary Wallace Well formed, semi-double flowers of bright clear rose pink, with salmon base to the petals, generally exceeding 4 inches in diameter, very free flowering.

Mme. Gregorie Staehelin This most unique climber was discovered in Spain in 1925, and is considered the most outstanding climber. It is a hardy, vigorous grower with crimson buds opening to large, perfumed, pale pink flowers.

Paul's Scarlet Climber The most popular red-flowered climber of the day. Flowers large, well shaped, vivid scarlet-red, fading but little. Has a tendency to bloom again in the fall.

Pink Dorothy Perkins A beautiful pink variety, similar in every way to Dorothy Perkins. Flowers profusely in large clusters, very fragrant and lasting.

White Dorothy Perkins Like Dorothy Perkins, except that the flowers are white. The very best double small-flowered white climber.

ROSES (Hardy Hybrid Teas)

Dame Edith Helen One of the largest and most perfectly shaped pink roses known. Blooms abundantly, with long, strong stems. It has attracted abundant praise and unstinted admiration everywhere. The most perfumed of all pink roses.

E.G. Hill Great massive blooms of deep maroon, velvety on inside and glistening outside, very perfumed with old rose fragrance.

Etoile de Hollande The finest dark red rose for general purposes, having great vigor and floriferousness. Its gigantic flowers are velvety crimson, and are produced with great freedom throughout the season. It is unquestionably the best and most popular red hybrid tea rose.

Frau Karl Druski Very vigorous growth, with gigantic white buds and blooms. A hybrid perpetual, but the most popular white rose in existence.

Golden Dawn Bud rich straw-yellow, flushed old-rose, flowers double, well formed, fragrant, sunflower yellow passing to lemon-yellow with age.

Gruss en Tepitz Erect, bushy plants three to four feet high, covered throughout the season with an abundance of small blackish-maroon blooms in clusters. One of the most popular and valuable roses known, especially for large beds, borders or hedge purposes.

Lady Hillingdon The always popular, beautiful apricot-yellow tea rose, with lovely buds and exquisitely formed open blooms produced continuously. Probably the hardiest of all tea roses, and undoubtedly the best yellow tea rose.

Los Angeles Beautifully shaped fragrant flowers of pale satiny pink, richly shaded with deep rose and gold. Extremely popular with everyone for its beauty and fragrance.

Luxembourg One of the hardiest yellow roses grown.

Paul Neyron The largest pink blooming rose grown; very fragrant.

Pink Radiance One of the famous Radiance family. Plants produce wonderful foliage and are very vigorous, producing large pink blooms of excellent globular shape and intense fragrance.

President Hoover A glorious rose, wonderfully free flowering, and charming in its color arrangement, which is a splendid combination of crisp pink, flame scarlet and yellow. This combination of colors gives the most dazzling color effect in existence. The buds are beautifully pointed, the flowers large, composed of broad, heavy petals, with an exquisite fragrance.

Red Radiance A bright rosy red form of Radiance, with the same good habit and blooming qualities.

Rev. F. Page Roberts Marvelously colored flowers of golden yellow stained with copper, and reddish buff on the outside. One of the most popular in the world.

Souve. de Claudius Pernet A most vigorous grower of erect branching habit; beautiful, long pointed buds of exquisite shape, carried on long, stiff stems. Very large, full beautifully formed bloom. Color striking sunflower-yellow.

Talisman The rose of many gold medals. It is the most remarkable piece of coloring that we know in any rose; the combination of shadings of gold, apricot, yellow and deep pink or old rose. The outside of the petals is bright yellow, gold and pink; as the flower develops and the petals unfold they become bright apricot, gold, deep rose-pink or old rose. The bud is long, perfectly formed, averaging about twenty-five to twenty-eight petals. The plant is a strong, vigorous grower, with glossy green foliage and free flowering.

White Killarney A pure white but more double form of Killarney.

A Wonderful New Lily

A few years ago I had the pleasure of being one of the first to introduce to my friends the Regal Lily, which has now become so very popular. I had the great honor and pleasure, too, of knowing its discoverer, who later became the President of the Arnold Arboretum, the late lamented Dr. E. H. Wilson. Dr. Wilson is known to the horticultural world as the discoverer and introducer from the Asiatic continent of many remarkable bulbs, plants, trees, etc. He also found and reported several other lilies, among them what bids fair to become almost, if not quite as popular as Regal Lily, the new *Lillium Philippinese Formosanum*. This remarkable lily has the peculiar characteristic of sending up additional plants after the first spike or spikes have bloomed, and which bloom successively until stopped by frost. It is a tall growing lily, and bears fragrant white flowers. The color on the outside of the petals varies like in Regal Lily, and, like Regal Lily, this lily also varies like those with pinkish brown, or brownish backs to clear white. The throat is about the same color as our well-known Easter Lilies. The flowers are also of the long trumpet form as in the Easter Lilies.

Lillium Philippinese Formosanum is said to be hardy, by lily specialists who have tested it, but should be planted in well-drained soil, planting four to six inches deep, and protected with a mulch covering over the winter, as is done with tulips, hyacinths, etc.

I have taken pains to grow a nice stock of *Lillium Philippinese Formosanum*, some of which are in bloom now (out of doors), October first. The past winter I saw a number of these lilies grown in greenhouses, and they certainly made the most wonderful showing in their foliage of any lily I have ever seen. The stems were quite thickly clothed in very long leaves. I believe the spread of the leaves on some was more than 20 inches across. I have great confidence in the future of this lily, and believe it will become very popular, as soon as stocks can be grown sufficient to meet the demand. The past season I have grown some thousands of it, and I am in a position now to send out a few thousand bulbs, if any of my customers want to test it out, and get a start among the first in growing this remarkable new lily. These bulbs will be shipped in damp moss, and are suitable to be planted either out-of-doors or in pots. I would suggest that anyone growing them should make out-of-door planting trials, as well as growing one or more in pots in greenhouses or homes for winter blooming.

The price will be, in good blooming size, 3 for \$1.00; 6 for \$1.75; 12 for \$3.00. In smaller blooming size, 4 for \$1.00; 6 for \$1.25; 12 for \$2.00. Prepaid.

These plants will be packed in damp moss, and guaranteed to arrive with their foliage and roots in good condition for immediate planting. Planted in-doors, they should bloom in two to three months.

Something Special About Peonies

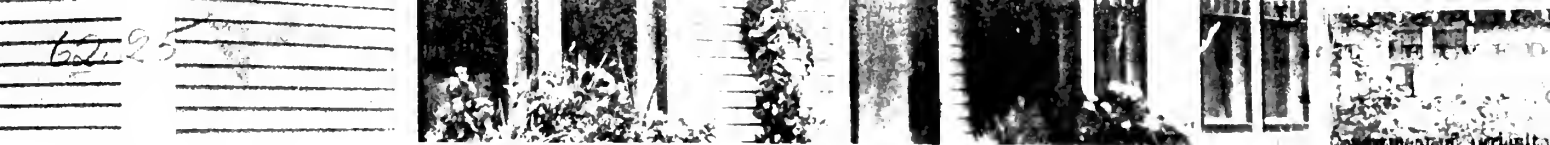

For some time I have been considering a special extraordinary offer of Peonies to my customers. Many, no doubt, are aware of the fact that a few years ago I bought the extensive and magnificent collection of Lee R. Bonnewitz, known everywhere among Peony lovers as one of the very finest Peony collections anywhere in the world. This collection contains something like seven to eight hundred varieties, many of which only a few years ago were selling from \$5.00 to \$10.00 each, and even much higher.

No doubt there are thousands of people who would gladly buy some of these, if they knew of the very great reductions contained in my offer of them. Varieties as high as \$25.00 to \$50.00 can now be bought in this sale at as low as a couple of dollars; varieties, which sold at \$2.00 and \$3.00 or more, as low as 75c to \$1.50. Many of the finest Peonies can be bought from 50c and 75c each to as low as 35c, and even fine varieties at 25c each.

Perhaps you have been thinking of having a bed of beautiful Peonies some day, so now is your chance.

Write me a list of what you might like to buy, and I will quote you a special price, which I am sure will surprise and more than please you. The prices, which I am going to give you on Peonies for this fall's planting are not intended to be permanent, nor a cut below the prices of other good reliable Peony specialists, but are intended only for a short time. As you know, it takes several years to grow a Peony into a nice blooming plant, and you cannot afford to wait at the price which I am offering them now. In only a few years you will be paying more for your cut flowers alone than you can buy good plants for now, and soon have large clumps, which will make you a dozen or more blooms in a season, often worth considerably more than the entire original cost of your plants.

Send me your list of wants soon, and I will give you a surprising quotation by return mail. Planting time is here, and the sooner you get your plants in the ground, the more certain you are of having a few blooms next spring, as well as well-established plants, which should make a nice showing the second season.

KUNDER'S EXTRAORDINARY EVERGREEN SPECIAL

4 EVERGREENS FOR ONLY \$1 PREPAID

You May Choose Any Four

below
are the Kind of
we send you TREES

NOT often do you have an opportunity to buy evergreens at anywhere near this price. These healthy, hardy little evergreens will soon become large trees and priceless possessions. They are four years old now and have been twice transplanted. They are just the right size and in the right condition to be planted in your grounds. They will be sent prepaid and they will thrill you when you see how heavily they are rooted and what beautiful specimens they are. This price is so sensational, so astoundingly low that you should check all available places where you can plant evergreens of this size.

YOU MAY CHOOSE ANY 4 for only \$1

YOU MAY CHOOSE ANY 8 for only \$2

You may have the entire 10 for only \$2.25

1—**Mugo Pine**, (*pinus montana*). One of the finest is the Mugo Pine which has become adapted to home planting. They have been costly due to expense in obtaining prior seeds in the earlier days. Around the base of the foundation, at the foot of the steps, next to taller trees, and along pathways are ideal places for Mugo Pines. The new shoots of spring and early summer are silvery like little glowing candles. They do not grow tall but spread out considerably.

2—**Colorado Blue Spruce**, (*pinus*). One of America's foremost authorities calls the Colorado Blue Spruce nature's highest effort to produce the beautiful. Here is a tree of majestic splendor. Picture it you will a tree of perfect shape, with abundance of foliage glistening in the sunlight like flashes of steel. You have seen trees laden with soft, white fluffy snow that resembles the beauty of the Colorado Blue Spruce.

3—**The Norway Spruce**, (*excelsa*). The Norway Spruce grows everywhere and is so popular it hardly needs further introduction. While it is more common than some others it nevertheless is beautiful. It is easily cultivated and its rich deep color is very admirable.

4—**Austrian Pine**, (*nigra austriaca*). The Austrian Pine, meaning "Black Pine" has two leaves in a single sheath, straight and slender of form, from 4 to 5 inches long and of deep rich green color. The Austrian Pine is perhaps the hardiest of all evergreens. It is easy to manage under almost every condition and rarely gives disappointment. It is one of the outstanding evergreens and one of the favorites for home planting.

5—**Irish Juniper**, (*communis hibernica*). This variety is very de-

scribable and well fitted for many purposes in that it has a great habit with blue-green branches. The entire tree is one of outstanding beauty and very hardy.

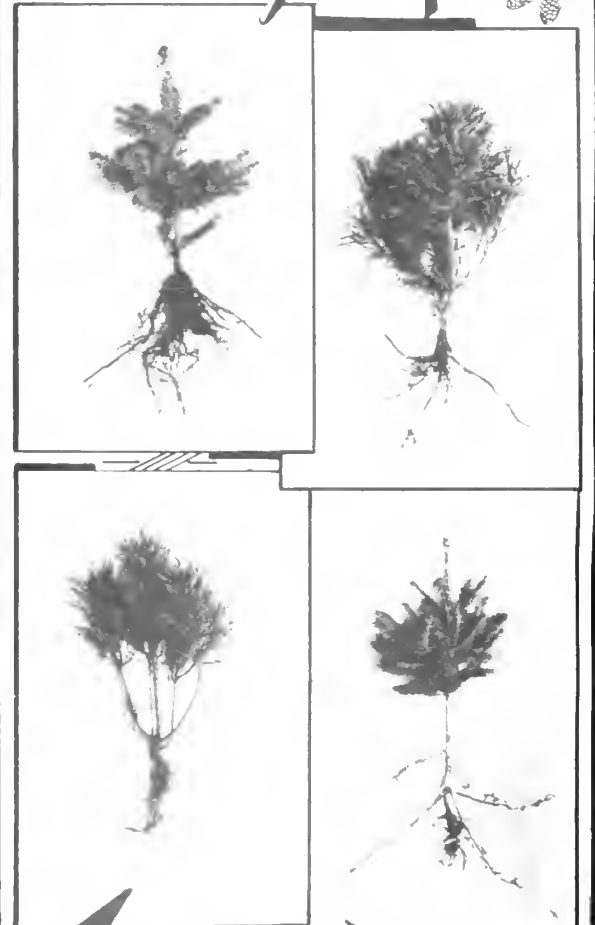

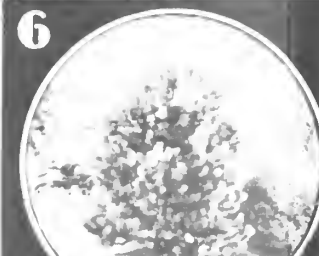

6—**Scotch Pine**, (*sylvestris*). This is an evergreen bearing those beautiful reddish brown cones about two inches long. It becomes a very rugged tree and it is often planted as wind breaks. The leaves are bluish green and very beautiful.

7—**Globe Arborvitae**, (*globosa*). This evergreen is a low, slow growing, dense globe-shaped variety that is very useful for border planting and is very satisfactory for low growing hedges. It is very hardy and especially ornamental. Its color is intense yellow green and most magnificent against the deeper color of the lawns and other hedge plants.

8—**Pyramidal Arborvitae**, (*pyramidalis*). A compact, narrowly pyramidal tree whose branches are short and densely clothed with bright green foliage. It is a very formal tree and most attractive. These varieties are particularly adapted for entrance and corner plantings. Their stately beauty makes them great favorites.

9—**Douglas Fir**, (*douglas*). A vigorous grower and a splendid, hardy evergreen of symmetrical shape. It has rather short needles and most marvelous deep, rich color. The Douglas Fir thrives in almost any situation.

10—**Concolor Fir**, (*tabulae white fir*). This is a beautiful silver or blue-green color, contrasting well with the darker evergreens, and is therefore a good substitute for the blue spruce. It is a big, broad shouldered, sturdy tree well suited for your landscape.

HOW TO PLANT and Care for EVERGREENS

When these evergreens reach you they will be carefully packed in damp moss. As soon as they arrive they should be planted or before the moss has an opportunity of drying. The hole for the tree should be amply large to allow the roots to be spread out fan shaped. The dirt should be well pulverized and replaced, a small amount at a time and the soil should be well worked in around and among the roots. The soil should be damp. When the soil has reached the ground level be sure that it is either level or sloping slightly toward the base of the tree. Water the trees every few days until well started. A mulch around the trees aids in holding the moisture. Twice a week allow the water to run freely through the leaves. This removes whatever dust may collect upon them. Plant them where they will have sunlight a part of the day at least.

●

No Yard too Small, No Yard too Big for EVERGREENS

Evergreens are essential to landscaping of every home. Winter and summer they remain green. There is no shedding of foliage or fading of color. The beauty of evergreens is perpetual. Around the home or scattered throughout an otherwise monotonous space of green lawn they have their place of beauty in any home. Small corners, at the edge of the wall, along drives, in rock gardens, etc., evergreens add a stately air of elegance. THIS OFFER IS REALLY OUTSTANDING AS IT OFFERS YOU YOUR OWN SELECTION OF THE FINEST KNOWN EVERGREENS at an unheard-of price.

4 UNUSUAL COLLECTION OFFERS

by KUNDERD ➔

These Prices Shatter all Records

8 HARDY EVERBLOOMING HYBRID TEA ROSES for only \$1⁰⁰ prepaid

For this very small amount you get the following 8 hardy, ever-blooming hybrid tea roses—you get plants in full foliage—you get plants that are guaranteed to bloom the first year—you get varieties that have never been surpassed for beauty, type or size—you get the finest quality roses in existence and you get these at a price never before offered on a collection of this kind. Every rose comes to you properly labelled, every one is guaranteed first quality, every bush is hand selected AND HAND PACKED AND READY TO BE PLACED IN YOUR GARDEN. If purchased singly, from other sources, some of the individual varieties offered here would cost as much as the entire collection.

HARDY HYBRID TEA ROSES

- 1 *Dame Edith Helen* Perfect buds developing into wonderful flowers of immense size are produced singly on well-foliaged, strong canes. Color a brilliant soft Rose du Barri pink. Strongly sweet scented.
- 2 *Etoile de Holland* A strong, vigorous, healthy grower and a free bloomer which, like the popular Radiance roses, improves in vigor from year to year. A brilliant crimson red.
- 3 *Golden Ophelia* Nice shaped buds with deep golden-apricot center shading lighter to the edges, delicately scented.
- 4 *Pink Radiance* A marvelous pink rose that hardly needs description. It is one of the finest and will bloom until late fall. Sweet scented.
- 5 *Red Radiance* An even better rose than its parent "Radiance" in habit, bearing big, globular flowers of deep rose red on strong, individual canes which are freely produced all summer.
- 6 *Sunburst* The color is orange-copper or golden-orange and golden-yellow. It is the yellowest of all roses in the everblooming class.
- 7 *Talisman* It is a most remarkable piece of coloring, combination shadings of gold, apricot, yellow, deep pink and old rose. The bud is long, well-shaped and develops into full double flowers.
- 8 *White Killarney* Pure white. Long in bud and of beautiful form.

8 HARDY CLIMBING ROSES for only \$1⁰⁰ prepaid

There are many places where these charming climbing roses may be used. They are unequalled for covering arbors, trellis, pergolas, fences and homes. They bloom profusely and their beautiful colors and delightful fragrance makes them very desirable. Read the descriptions of the favorites offered in this collection. It doesn't seem possible that these 8 popular varieties can be supplied for \$1.00, every one properly labelled and in full foliage, but they can be nevertheless. These collections are real BIG BARGAINS IN A LOW-PRICE YEAR.

CHOICE CLIMBING ROSES

- 1 *Climbing American Beauty* Red, Same color, size and fragrance of the American Beauty, with the addition of the climbing habit. One plant of this new rose will produce twenty times as many flowers in June as the old American Beauty.
- 2 *Dorothy Perkins* Soft shell-pink, flowering profusely in large clusters, very fragrant and lasting, a grand rose in every way.
- 3 *Dr. Van Fleet* Flowers when open run four inches and over in diameter. The center is built high, petals beautifully undulated and cupped. The outer surface deepening to rosy-flesh in the center.
- 4 *Mary Wallace* This is Dr. Van Fleet's masterpiece. Blooms two or three times during the summer months. A pillar rose supporting itself in a bushy growth 6 to 8 feet high. Bright, clear rose-pink with salmon at base of petals.
- 5 *Paul's Scarlet Climber* Vivid scarlet, shaded crimson, makes brilliant display for a long period of time in the garden. A wonderful climbing rose. We consider it the best.
- 6 *Red Dorothy Perkins* Ornamental climber which is nearly evergreen, this will assure this lovely pillar rose a place in every American garden, for it is quite hardy in addition to all of its other fine points. The color deep rosy-red, the tips of petals tipped with scarlet.
- 7 *Silver Moon* Flowers very large, four and one-half inches and over in diameter. Pure white in color, petals of great substance, beautifully cupped, forming a clematis-like flower. The yellow stamens add to its attractiveness.
- 8 *Shower of Gold* Deep golden-yellow, with orange shadings in the center.

10 HARDY ONLY \$1 LARGE FLOWERING CHRYSANTHEMUMS for only \$1⁰⁰ prepaid

This collection brings together 10 of the finest and most popular standard varieties of large fall-flowering Chrysanthemums. The profuse amount of flowers provided will give you large bouquets late in the fall when all other flowers have past. Never before has it been possible to offer such a fine collection of magnificent Chrysanthemums at such a small cost. They are strong, healthy plants, properly labelled for identification and shipped to you prepaid. You cannot afford to miss this rare treat.

CHRYSANTHEMUMS (large flowering)

- 1 *Boston*—An even shade of golden bronze
- 2 *Field of Snow*—Pure white, a very profuse bloomer
- 3 *Glory of Seven Oaks*—Deep, golden yellow
- 4 *Glory of the Pacific*—Early pink, a fine flower
- 5 *Golden Queen*—Large yellow, one of the best
- 6 *Harvard*—Dark crimson of reflexed form
- 7 *Harvest Home*—A beautiful bronze, good growth
- 8 *Indian*—Flowers of coppery red
- 9 *Murillo*—The best pink hardy chrysanthemum
- 10 *Winnetka*—Pure white, very free bloomer

10 HARDY ONLY \$1 POMPON CHRYSANTHEMUMS

These charming little pompons are exceedingly beautiful and make a lovely show late in the fall. We have assembled here 10 of the best ones and these 1 will be sent to you, every one a different variety, properly labelled and prepaid for \$1.00. Chrysanthemums are Nature's last gesture in producing beautiful flowers before Winter comes. You should have a nice collection of these fine pompons to add more color to your garden in late fall.

RECORD-BREAKING BARGAIN OFFERS

Roses, without question, are a great favorite with everyone and are universally very popular. We have the privilege of offering you here a magnificent collection of either hardy, hybrid tea roses or climbing roses at but a very small price. We also offer you a choice of two large collections of hardy, fall-blooming Chrysanthemums which are also exceedingly popular. The Chrysanthemum, as you know, blooms late in the fall when flowers are exceedingly rare. We doubt that any previous offer you have had on Roses or Chrysanthemums will equal what we offer you at the small price asked. These prices completely upset any previous idea you may have had as to what constitutes a real BARGAIN. It is our guarantee that these plants are equal in QUALITY with plants offered at HIGH PRICES elsewhere. We GUARANTEE them in every respect. We urge you to take advantage of these MONEY SAVING OFFERS.

Last Bright Color of the Fall Garden

The hardy, fall-flowering Chrysanthemums much resemble the indoor varieties and are comprised of two distinctly different types. The larger is the Aster-like type and the other the tiny pompon or button-like varieties so generally favored. These flowers bloom late in the Fall, at a time when there is a great scarcity of flowers. The profusion of blooms and the colors partly make these very desirable plantings. The collections we are offering embrace those varieties most suitable for outdoor use.

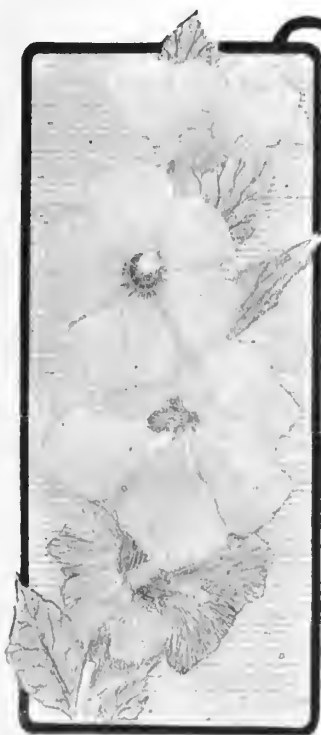

CHRYSANTHEMUMS (Pompon)

(Continued from inside page)

- 1 *Bronze Doty*—Large extra terra cotta bronze
- 2 *Diana*—Large double white
- 3 *Fire Bird*—Fine early red, large type
- 4 *Frank Wilcox*—Golden bronze, very late
- 5 *Gold Mine*—New large yellow, extra good
- 6 *Lillian Doty*—Large flowers of shell pink
- 7 *Little Bob*—Bronzy red button, a favorite
- 8 *Rose Charm*—The popular large bright rose pink
- 9 *Skibo*—Bronzy yellow. Tall grower. Very hardy
- 10 *White Doty*—The large pure white Doty sport

PINKS—REDS—WHITES

(All Shades)

(All Shades)

(And Cream)

The perennial Mallows, which we offer in this collection are not the ordinary run of Hibiscus, but are produced from the finest strains available. Every plant will be different and in most cases a single plant alone will be worth more than the price of the entire collection.

This collection of eight plants would normally sell at 35 cents each or a total of \$2.80. Hibiscus are the largest flowers that grow in the summer garden and present a gorgeous sight when in bloom. They grow 3 to 8 feet tall and the branches spread out over a great area. The flowers resemble the single hollyhock, only they are much larger, some measuring 6 inches across. The colors range from white to crimson, white with crimson centers and other soft blends. The plants begin blooming in July, but are at their best during August and September. Altogether these large Mallows present quite a tropical aspect to any planting.

FOR LARGE PLANTINGS

Mallows are hardy and adapt themselves readily to almost any planting. When grouped in masses the large plants present an extraordinary picture. They may be planted either among shrubs or used as a substitute for them. The plants are well adapted to garden border where space permits and along buildings, etc.

ANYONE CAN GROW MALLOWS

These large, beautiful flowering shrubs, do equally well in dry, or moist soil, sun or partial shade. They need very little fertilizer and require little or practically no care. The tops die down in winter and grow rapidly in spring.

**This outstanding offer is made possible only by present conditions
(Shipments made about April 1st)**

The illustration above shows the single floret in full bloom. Imagine the beauty of this flower in rich crimson against its richly colored green foliage.

Be sure to plant a number of these plants offered in this collection. The plants sent you will bloom the first year.

A MARVELOUS FLOWER for Border and Specimen Planting

Corners and large spaces can be quickly filled most artistically with Mallow Marvels. They grow tall in a short space of time and bloom over an exceedingly long period. They are sufficiently rich in coloring to be one of the most showy flowers. I am sure you will be pleased with them.

For only \$1.25 I will send you 8 plants ready to be placed in the ground. You will experience no difficulty with these plants because, fortunately Mallow Marvels are very rugged. The plants will be carefully packed and sent prepaid. Safe arrival is guaranteed.

Do not confuse these extraordinary varieties with ordinary kinds usually found in the average garden.

⎓ These new types and kinds are still very rare. This is a Golden Opportunity to get the finest HIBISCUS at a Bargain Price. ⎓

Kunderd's Biggest "Dollar Sale"—A Real Money-Saving Event

Offering Plants, Tubers, Shrubs and Bulbs, Guaranteed to be Kunderd's Famous Standard of High Quality

FOR the first time we are offering everything for the garden in well balanced collections of outstanding varieties at a price not to exceed \$1.00 prepaid. We believe, without a doubt, this constitutes the greatest dollar value ever offered to flower lovers. Here virtually is an opportunity to have your favorite flowers—to have collections unrivalled—to have beauty unsurpassed—to have fully guaranteed

HARDY CARNATIONS

These Hardy Pinks rank with the time-honored gems of the old fashioned garden. They are splendidly adapted for beds and borders because of their great beauty, free blooming qualities and usefulness as cut flowers. They yield a profusion of the most sweet scented flowers, single and double, and are unrivalled for brilliancy and contrasting tints. We offer you 8 varieties, all different and each one properly labelled for

HARDY PHLOX

None of the hardy perennial plants are more gorgeous or more easily grown than these. They can be successfully planted in any garden soil and multiply rapidly. They produce magnificent spikes of showy, lasting and fragrant flowers, year after year with comparatively little care. They are the main standby for harmonious garden color through the difficult month of August. Give plenty of water at the approach and during blooming season. Six popular varieties, each a different variety, and all properly labelled are included in this collection for

HARDY CLIMBING ROSES

In this collection we have assembled 8 of the most popular varieties of this charming class of roses. Their delicate fragrance, solid banks of color and easy culture mark them as a precious possession. For covering trellis, pergolas, fences, porches, pillars, etc., they are unexcelled. Every rose in the collection will be labelled. Since Climbing Roses bloom only on the past seasons wood, they will, of course, not bloom the first year after planting. Eight bushes of outstanding varieties in full foliage for

CANNAS—Orchid Flowering

These magnificent flowers of dazzling colors measure from six to eight inches across and mark a wonderful development by the plant breeder and are a marked contrast to the cannas of earlier days. The wonderful varieties with superbly colored gigantic flowers all of which are of easiest culture and of great value to the garden. Cannas rapidly increase in numbers. Plants grow 4 to 6 feet tall. In planting, firm the roots well and cover with 4 to 5 inches of soil. Set plants 20 to 22 inches apart. This collection includes 8 favorite varieties, enough for a fine large bed, all different and properly labelled for

DELPHINIUM—The best blue perennials

Few plants lend a greater attraction to the garden in early Summer than bold masses of Delphiniums. They require so little care and thrive well in ordinary garden soil. Plant 18 inches to two feet apart. To obtain a second crop of flowers; prevent first flowers from seeding. This marvelous collection of Delphiniums consists of 5 choice varieties, all different, each one labelled properly for

HARDY EVERBLOOMING HYBRID TEA ROSES

These beautiful roses are so perfect and exquisite that you are reminded of the beautiful blooms you see in the florist's window. The blooms are large, they are unusual in shape and form, and their fragrance is like the rarest of perfumes. They are of easy culture and thrive in any garden soil. In this collection we have made a selection of 8 of the most hardy, popular, and outstanding kinds and will have every one labelled for your identification. These roses are in full foliage, are guaranteed to bloom the first season for

HARDY CHRYSANTHEMUMS

This perfectly hardy and magnificent flower blooms in autumn, after other flowers have disappeared from your garden. They bloom in profusion, beautifying your garden and providing you with cut flowers even after frosts. You may have your choice of either 10 varieties of pompon chrysanthemums (those charming little fellows), or 10 large flowering varieties, each one, of course, a different variety and all properly labelled. (Be sure to state your choice of the collection wanted) for

plants—guaranteed to bloom this first year, at a price which makes it impossible for you to pass by. Go over this list carefully—note the assortment of flowers, ferns and shrubs that are offered—note the presence of the many different garden favorites. Do not overlook the fact that all these plants, roots, tubers and bulbs are all sent to you prepaid with but one exception, (the Surprise Collection) and all plants, with no exceptions, are sent labelled so you will know just what each one is by name. Also note that there is no Collection over \$1.00 in the entire list. In order to avoid any possibility of disappointment, place your order at once for as many collections as you can plant. This is an extraordinary opportunity to have a lot of flowers for only a dollar, less than a dozen good cut flowers would cost you, and you will have your plants, with increase, for years, besides. From the small amount that you spend for these collections you will have years of real joy and happiness because nearly all of these flowers are perennials and will bloom each year with but very little attention.

DAHLIAS—The all purpose Flower

Dahlias excel in popularity, color, size, as a landscape flower and for cutting . . . Very easily grown . . . Plants grow tall . . . Plants and flowers are harmoniously beautiful . . . Plant tubers flat, 6 to 8 inches deep . . . This fine collection consists of 6 popular varieties, each one a different color, and all properly labelled for

VINES

Climbing vines add a quaint beauty to every spot which they adorn. Modern architecture is vastly improved by their presence, especially along porches, fences, sides of house and the like. They require so very little attention, once planted, that they can almost be forgotten. We have selected three for which a great preference has been shown. These will grow into sizeable vines even the first year. This collection consists of 2 roots each of Kudzu, Honeysuckle and Moonvine. All 6 plants will be labelled for

GERANIUMS

Here is the flower of Grandmother's home and garden, and still very popular. The flower She loved is the one You love. They are beautiful, easily grown, old fashioned flowers of magnificent color. The gorgeous trusses of single, semi-double, or double flowers with a wealth of bright green healthy foliage furnish a decorative feature which wins the highest admiration and arouses sentiment of bygone days. We offer 6 lovely varieties, all different colors and shades, each properly labelled for

PERENNIAL POPPIES—Orientale

These poppies, with their bright oriental colors, bloom during May and June and grow from 2½ to 4 feet high. The whole plant, from the heavy magnificent foliage to the large flower cups and seed pods, makes a majestic subject . . . The flowers often measure 9 or 10 inches across. They grow well in any open, sunny position in good, deep loamy soil . . . They are of easiest culture and require very little care . . . In this collection there are 6 of the foremost varieties, all different and labelled for

ROCK GARDEN PLANTS

The popularity of the Rock Garden is well known, and you will be thrilled to learn that we are offering in this collection 6 of the most outstanding kinds. They are all perfectly hardy and will make a delightful addition to your present garden, or will form the nucleus of a new one. We would suggest that you order several of these collections, as the price is a sensational one. All 6 plants for

BEDDING PLANTS

Here is a collection of 8 bedding plants, all different, which we have found to be very suitable where a diversified collection is desired. We have made our selection of plants, offering the widest possible range of colors and types. For an informal planting, you will find these lovely plants of great beauty all summer long. These varieties will prove a delight and are guaranteed to bloom this summer and will be sent to you all under label for

BUTTERFLY BUSH

Because of its attraction for butterflies, this shrub has become very popular. It is in bloom continuously from July until frost, bearing long spikes of fragrant, brilliant, lilac flowers having orange centers. Top generally dies back to ground during Winter in northern latitudes, then develops into vigorous growth again in the Spring. Eight standard plants of the variety Magnifica, all labelled for

SHRUBS

We offer you here three of the most popular shrubs. First, the Red Leaved Barberry which is noted for its rich, lustrous, bronzy red foliage which changes to vivid orange scarlet and red shades in the Fall; Second, the Kolkwitzia (Beauty Bush), a beautiful foliage shrub, growing 6 to 8 feet at maturity, and producing a profusion of pale pink bell-shaped flowers in June. Third, Spirea Van Houtte, the grandest of all white Spireas. This collection contains two each of these three shrubs and every bush will be properly labelled for

FERNS

These hardy Ferns are well fitted for shady locations, where little else will succeed. The dark soils of our deep woods are suited for these shade loving plants. They are, as a rule, easy to grow. They are quite permanent when well established and should be left quite alone. This collection has six distinct varieties, all properly labelled for

SURPRISE COLLECTION

This collection of twenty hardy perennial plants offer the thrill of a lifetime. It is our "Grab-bag" collection, but when you open the package you will find all plants properly labelled. It will be a very pleasant surprise for you, and one you will long remember. Imagine twenty perennial plants labelled, a regular \$4.00 to \$5.00 value for
